

New Look, New Products, for MOEM Trailer 2011

The trailer has been redesigned and built with MOEM / Panel Builders in mind. This trailer is one of the most tactical moves you can make to grow control component sales, getting face to face with the end users. This sales tool will allow Eaton to introduce all our MOEM product lines to a customer in 1 hour enabling us to discuss their needs from product requirements, applications and pricing.

Trailer calls are managed by the Eaton MOEM sales team in each region, please contact them to gain access to this great sales tool to help you seal the deal

Some of the things you will find on the trailer 2011:

- XT Full Voltage Control
- Freedom Full Voltage Control
- New Solid state overloads C440 and C441
- IT Soft Starters S801, S811
- Lighting contactors latched and unlatched
- DP contactors
- Variable Frequency Drives
- Power Supplies
- AC Disconnects
- Cam Switches
- Supplementary and Branch Circuit Protectors
- Motor Protection Breakers
- Custom Push Button Stations
- Limits and Safety Switches
- 22mm and 30mm Push Buttons and Pilot Devices
- Optical and Proximity Sensors
- Programmable Relays and PLCs
- Terminal Blocks and Custom Rail Assemblies
- HMi, Electronic Metering and Stack Light (Powered)
- XT, Enclosed Both Combination and Non-combination
- XT Non-Metallic
- Smart Wire DT
- Durant Timers, Counters and Temperature Controllers
- Enclosed Disconnect Switches

Please note, the primary role of the MOEM trailer is for customer calls, not intended for BBQ events.
